

Optik

Magazine for the Swedish Optical Business 2023

12 opportunities 12 possibilities

OPTIK is moving forward with increased digital publications – aside with 4 numbers of OPTIK Magazine. This gives you 12 opportunities to effectively reach the entire Swedish optic market.

The magazine OPTIK will publish **4 print numbers** – all with top-level analyzing and reporting journalism. In addition, **8 digital releases** with news and latest information from the entire optic world. Separately distributed via mail as well as digitally published on The Swedish Industry of Optometry's new website. 12 opportunities to reach opticians, assistants, students and other actors in the Swedish optic market. 12 opportunities to build brands – be it lenses, arches, glasses, machines, instruments, IT systems or, for that matter, entire chains of optic stores.

And of course, 12 opportunities to seek staff or agents, to build your brands and to let the market in on your vision.

Take a look at the publication schedule - 12 opportunities, 12 possibilities.

Then contact me and we will plan OPTIK Magazine to be an effective and active communication channel for your business in 2023.

And of course, we've put together a package that offers a generous bonus.

I look forward to hearing from you.
